

### **Pinnacle Industries to deliver 466 Ambulances to the Government of Bihar**

*Pinnacle Industries has supplied 226 Basic Life Support Ambulances, as a part of the larger order to supply 466 ambulances to the state government of Bihar*

**Mumbai, 8<sup>th</sup> July 2022:** Pinnacle Industries, India's leading automotive seating, interiors & speciality vehicles company, has successfully designed, developed & delivered 226 Basic Life Support Ambulances, as a part of the larger order to supply 466 ambulances to the Department of Health, Bihar Government. The vehicles were inaugurated and flagged off at the hands of the Honorable Chief Minister of Bihar, Shri Nitish Kumar Ji, in the presence of Shri Tarkishore Prasad Ji, Deputy Chief Minister, Government of Bihar, and Shri Mangal Pandey Ji, Health Minister, Government of Bihar.

Speaking at the achievement, **Mr. Arihant Mehta, President, Pinnacle Industries Limited**, said, *"The healthcare infrastructure in India is rapidly evolving, and medical transportation is becoming a key part of healthcare innovation. We are extremely grateful to the Government of Bihar for partnering with us and giving us this opportunity. Being a leading company for designing and developing certified and regulatory-compliant ambulances and medical application vehicles, Pinnacle Industries has proven to be a successful partner to governments and healthcare organisations to create an efficacious healthcare transportation ecosystem. We look forward to providing world-class healthcare mobility solutions in India with our industry-leading products and designs."*

These basic life support ambulances are designed and developed by Pinnacle Industries to enable and provide the necessary medical support to the patients during the emergency transit, particularly to the patients living in the tribal, rural & urban geographies of Bihar. Pinnacle's basic life support ambulances are equipped with an efficient oxygen delivery system, portable air-way care system (PACS), delivery of IV infusion solutions, regular diagnosis, patient handling equipment, etc. to provide primary and emergency healthcare and treatment to the patients in transit. These ambulances will enable the health department to expand and establish a robust healthcare infrastructure in the state through an efficient referral network.

Pinnacle Industries is specialized to offer multiple types of health care products in the Ambulance & Non-Ambulance categories. Incorporated in 1996, Pinnacle Industries is India's leading automotive seating, interiors, electric vehicle components, railway seating & speciality vehicles company. Its subsidiary, EKA by Pinnacle Mobility Solutions is one of the only commercial vehicle manufacturers approved under the Champion OEM Scheme & EV component manufacturing scheme of the Government of India's Auto PLI policy.
