From President's Desk

As we embark on a new chapter filled with endless possibilities, I am thrilled to connect with each and every one of you through the sixteenth edition of our newsletter.

In the ever-evolving landscape of our industry, embracing change is not just a necessity but a catalyst for growth. It brings us immense joy to share a recap of our recent achievements and milestones, showcasing our incredible strides as a collective force.

We are excited to announce that Pinnacle Industries and its subsidiaries– EKA Mobility, VDL-Pinnacle, Instor India, and AIC-Pinnacle Entrepreneurship Forum – have again achieved remarkable success in the past quarter, thanks to our team's and partner's diligent efforts. Propelled by new collaborations and innovations, we're continuing to invest in cutting-edge technologies to align with the ever-evolving requirements of our clients.

Our objective is to establish a supportive and inclusive work environment that draws in top-tier talent. We shall continue fostering our employees' personal and professional advancement with pride in being certified as a Great Place To Work®!

As we celebrate these milestones, let's take a moment to acknowledge the collective effort and thank all stakeholders, the Board of Directors, key partners, and our esteemed #PinnacleFamily for their outstanding contributions and integral role in shaping Pinnacle Industries. Each milestone reached reflects our shared commitment to #Process #Precision and #Performance.

Arihant Mehta,
President,
Pinnacle Industries Limited

PINNACLE PREMIER LEAGUE - SEASON 4

Pune Edition

PPL holds a special place in the hearts of the entire Pinnacle Family, including our group companies, serving as a platform for all employees to connect, engage, and collaborate with their peers. With 8 men's and 2 women's teams in Pune and 4 men's team lineups in Pithampur, this 2-day event witnessed active participation from everyone involved. Let us delve into some electrifying highlights from the games and celebrate the accomplishments of our winners!

From breathtaking fours and sixes to game-changing wickets and nail-biting last-over victories, the players showcased their skills and determination, making every match an unforgettable experience. Whether cheering from the stands or participating in engaging side events, the enthusiasm of our team added to the festive atmosphere.

Collaborations & Orders

Pinnacle Industries collaborates with Olectra Greentech Limited

Pinnacle Industries is proud to announce its latest partnership with Olectra Greentech Limited, bringing innovation and sustainability to the forefront of public transportation. Pinnacle Industries manufactured cutting-edge seats and interiors exclusively designed for Olectra electric buses, set to revolutionize the Maharashtra State Road Transport Corporation (MSRTC) fleet. As the exclusive provider of seats for 2500 buses operated by the MSRTC, Pinnacle Industries pledges to deliver unparalleled comfort, safety, and style to every passenger's voyage.

Railway Seating Systems for Vande Bharat Trains

Pinnacle Industries continues to strive for excellence in supplying seats for the Vande Bharat trains. We are proud to contribute to the evolution of rail travel by providing top-notch seating solutions that prioritize comfort, durability, and aesthetic appeal.

Our innovative executive seats for Vande Bharat feature a 180-degree rotating design, lockable at 90 degrees with a pedal, and a passenger-friendly footrest. Our versatile Economy Seats come in single, two-seater, and three-seater configurations, equipped with modular charging units. These seats boast efficiently designed foam with pressure mapping for excellent support and are wrapped in fire-retardant cloth for safety.

Ashok Leyland collaboration for defense application

Pinnacle Industries proudly supplied seats to Ashok Leyland Specialty vehicles for defense applications. With each meticulously crafted seat and meticulously designed interior part, we reinforce the safety, comfort, and efficiency of those who safeguard our borders.

Our seats fitted in Ashok Leyland's Specialty vehicles boast a robust design tailored specifically to their needs. Complying with AIS 023, our range offers two variants to suit diverse needs: a hump seat with a leg height of 190mm and a regular seat with a leg height of 270mm.

Crafted with precision, our pilot seats boast innovative features such as foldable and rotating armrests on both sides, with 25-degree torso angle and 16-degree back recliner operation buttons, and customized with or without lap belt features for added safety. Our seat comes with efficiently designed foam with pressure mapping, washable & fire-retardant upholstery, and removable cushions for easy maintenance.

Pinnacle Industries collaborates with Force Motors for LSV (Light Strike Vehicle) seats

We are honored to share the momentous occasion as Prime Minister Narendra Modi enters the Bharat Shakti exercise on Force Motors LSV (Light Strike Vehicle) fitted with Pinnacle Industries' seats in Pokhran, Rajasthan.

As a leading manufacturer of automotive seating & interior solutions, it has been our constant endeavor to contribute to India's defense and security infrastructure through innovation and excellence. The inclusion of Pinnacle Industries seats in the LSV accompanying Shri Narendra Modi Ji underscores our dedication to supporting indigenous manufacturing and strengthening our nation's capabilities.

Newsworthy Highlights

Pinnacle Industries is all set to participate in BusWorld SouthEast Asia, Jakarta

BUSWORLD
SOUTHEAST ASIA 2024

We are thrilled to announce our participation in one of the most prestigious events in the transportation industry, BusWorld SouthEast Asia, taking place from May 15th to 17th. You can find us in Hall No. C3, at Booth No. C3A3-01, located at Jakarta International Expo, Kemayoran, Indonesia.

As a leading name in the industry, Pinnacle Industries is excited to showcase our latest innovations and cutting-edge technology in commercial automotive seating & interiors. This event serves as an excellent platform for us to connect with industry peers, share insights, and explore opportunities for collaboration and growth.

Whether you're an OEM, customer, supplier, partner, stakeholder, enthusiast, or industry expert, we invite you to visit our booth and experience the excellence and innovation that define Pinnacle Industries.

Mitsui and VDL Groep pick up stakes in EKA Mobility

EKA Mobility, a prominent Indian electric vehicles and technology company, is delighted to announce its partnership with Mitsui & Co., Ltd. (Japan) and VDL Groep (Netherlands). Their unwavering commitment to environment focus, conscious innovation, and reliable mobility stands stronger than ever. EKA, Mitsui & Co., Ltd. (Japan), and VDL Groep (Netherlands) are steering the future of new mobility, making sustainability more profitable.

With a joint investment surpassing USD 100 million (~ INR 850 crores) in phases, this collaborative effort is all set to position India as the global manufacturing and sourcing hub for electric vehicles. In a strategic long-term partnership, they have entered into joint investments, equity agreements, and technology cooperation.

Mitsui, VDL Groep to Pick Up Stakes in EKA Mobility

REVVING UP Pune co to see $100m infusion, funds to be used to boost R&D, manufacturing capacity

Sharmistha Mukherjee

New Delhi: Pune-based EKA Mobility has formed a strategic partnership with Japan's Mitsui & Co and Netherlands-based VDL Groep to manufacture electric buses and light commercial vehicles in the country.

As per the agreement, Mitsui and VDL, together will invest ₹800 million (approximately ₹650 crore) in EKA Mobility for 'significant' minority stakes. The resources will be utilised to scale up research and development and enhance manufacturing capacity.

EKA Mobility, which commissioned a production unit in Pune earlier this year, plans to scale up production capacity to roll out 5,000 electric buses and 6,000 light commercial vehicles per annum in the first phase. This would be further increased to produce 12,000 electric buses and commercial vehicles each in the medium term, as per market demand.

Sudhir Mehta, founder & chairman, EKA Mobility, told ET that this is one of the largest and most significant partnerships in the new mobility segment in India, which will bring together the strengths and expertise of three leading automotive conglomerates in Asia and Europe to accelerate the development and adoption of innovative electric mobility solutions. "Under the cooperation, EKA Mobility will receive strategic investments from Mitsui and VDL Groep to develop a range of electric buses and light commercial vehicles for last-mile connectivity. These will be made locally for sale in the country as well as in markets in Africa, Asia and Latin America."

As part of this partnership, VDL Bus & Coach (a subsidiary of VDL Groep and a leading European manufacturer of electric buses and coaches) will support EKA Mobility by transfer of technology to produce electric buses in India for the Indian market. Mitsui, on its part, will extend support to EKA for exports to select emerging markets as well as establishment of systems and processes.

With this partnership in place, EKA Mobility is eying to grow turnover to $2 billion in the next 5 years. "India has 1-1.2 buses /1,000 people, which is even lower than 6-7 buses/1,000 people in markets like Africa. The potential to grow is immense, especially given the focus the government has towards encouraging the transition to e-mobility in public transportation systems," Mehta added.

EKA Mobility already has an order book for 700 electric buses and 5,000 electric light commercial vehicles. These will be designed and manufactured in India at EKA's proposed state-of-the-art manufacturing facilities in Madhya Pradesh and Maharashtra. The partnership also aims to scale up sourcing of EV components from India.

Rolf-Jan Zweep, CEO-VDL bus & coach, said it sees many opportunities in India, which is "obviously a promising growth market". "With this cooperation, we foresee especially many synergy benefits in the areas of procurement and development," Zweep said.

EKA Mobility is one of the commercial vehicle manufacturers approved under the Champion OEM Scheme & EV component manufacturing scheme of the auto PLI policy. Nobuyoshi Umetsu, GM of mobility business division at Mitsui & Co India, said: "Through the cooperation of EKA, VDL and Mitsui, we aim to contribute to 'Make in India'..."

Pinnacle Industries to commission a 5,000-unit e-bus plant in Chakan in September

Pinnacle Industries, India's leading commercial vehicle seating systems & interior manufacturer, is ready to set up a 5,000-unit new e-bus manufacturing plant in Chakan, Maharashtra, for its EV business vertical, EKA Mobility.

Pinnacle Industries has earmarked an investment of Rs. 2,000 crore over the next five years into its electric mobility venture, including locally manufactured EV components.

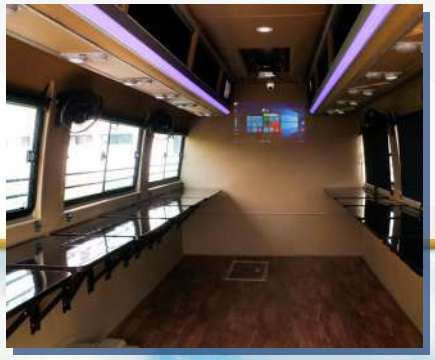
Innovation & Evolution

Presenting Our Custom-Designed: School-On-Wheels

Introducing Pinnacle Industries' School-on-Wheels -a customized mobile van to reshape the learning landscape. In the new era where education knows no bounds, we are excited to roll out our state-of-the-art mobile education van suitable for schools, colleges, and institutes everywhere!

Our school-on-wheels built on the reliable FML T2 4020 Traveller, feature a foldable side table for laptops, dual AC louvers on both sides, and convenient hat racks fitted with reading lights for enhanced productivity. The van boasts a projector provision for dynamic presentations, complemented by a camera system on the partition for interactive sessions.

Powered by an inverter with charging points strategically placed on side panels and provisions for laptop charging, the van ensures uninterrupted connectivity and education.



Unveiling Our Vision for a Brighter Tomorrow: Introducing the Eye Care Van

We are thrilled to share some exciting news with our valued community – the introduction of our latest innovation: the Eye Care Van! At Pinnacle Industries, we continuously strive to enhance accessibility to essential healthcare services, and this cutting-edge initiative is a testament to our commitment.

This initiative aligns with our mission to bring a positive impact on the well-being of our community. By bringing essential eye care services to your doorstep, we aim to break down barriers and ensure that everyone has the opportunity to prioritize their eye health. The eye care van comes equipped with eye examination tools, advanced diagnostic equipment, and vision test equipment.

With state-of-the-art equipment, our Eye Care Van ensures high-quality eye examinations, screenings, and treatments conveniently at their doorstep, making vision health more convenient and accessible.

Year-on-Year Growth %

Pinnacle Industries is thrilled to announce a remarkable achievement! We've registered a phenomenal 40.2% year-on-year growth in FY 23-24! This incredible milestone wouldn't have been possible without the dedication of our amazing team and the unwavering support of our valued clients and partners.

At Pinnacle Industries, we recognize that our success is intricately linked to the success of our stakeholders. Whether it's our valued customers, passionate employees, trusted suppliers, or supportive communities, our commitment to creating sustainable value permeates every aspect of our operations.

As we celebrate this remarkable milestone, we remain steadfast in our commitment to driving sustainable growth, fostering innovation, and creating shared value for all our stakeholders. Together, we will continue to reach new heights, redefine industry standards, and shape a brighter future for generations to come.

Here's to continued success and prosperity!

Collaborative Training Programs for Employees

At Pinnacle Industries, we recognize that collective growth is the cornerstone of our success. We take great pride in dedicating ourselves to the learning and development needs of our team through collaborative training programs designed to elevate the skills and capabilities of our incredible workforce.

By bringing together employees from various departments, we create a dynamic learning environment where ideas flow freely, and knowledge is shared seamlessly. In the past quarter alone, we organized over 20 training sessions covering a wide spectrum of topics. These sessions ranged from enhancing operational skills to strategic thinking, technology proficiency to financial literacy, and from business acumen to personal development. This diverse array of training reflects our dedication to providing a holistic learning experience for our employees designed to foster personal and professional development.

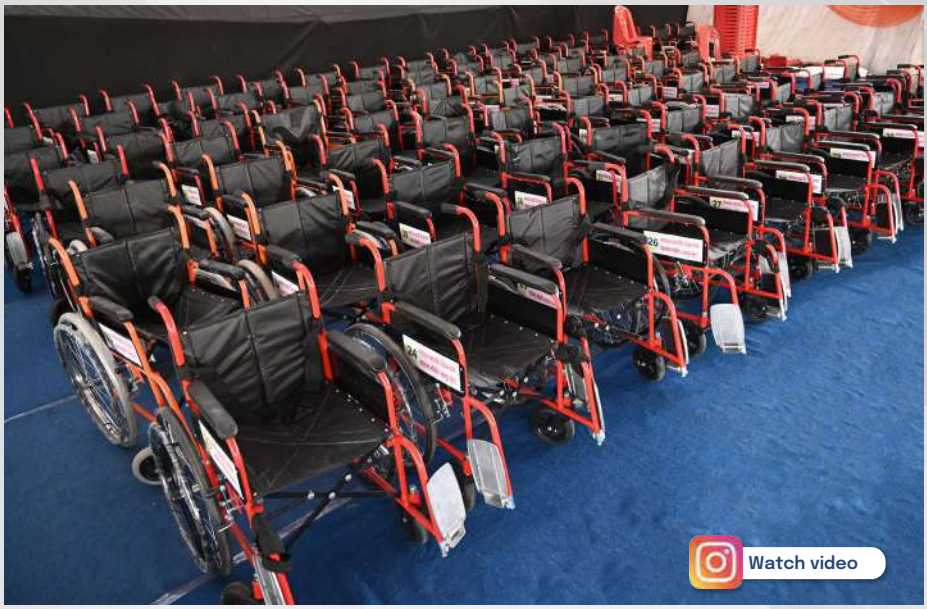
Pinnacle Cares

Pinnacle Industries Awarded with Rotary CSR Award, 2023

Pinnacle Industries Ltd. has won the Distinguished Service Award in Healthcare at "Rotary CSR Awards- 2023". The award function was held on 19th January 2024 at Hyatt Regency, Pune. Pinnacle Industries collaborated with Bhagwan Mahaveer Viklang Sahayata Samiti and initiated a center in the heart of Madhya Pradesh, Indore, in 2005. Over the past 18 years, BMVSS Indore has significantly impacted, extending its assistance to more than 15,000 individuals by providing essential prosthetic limbs to those in need.

Pinnacle Industries partners with BMVSS Indore for 100 wheelchairs distribution

BMVSS (Bhagwan Mahavir Viklang Sahayata Samiti) Indore Center, along with Pinnacle Industries, organized a Wheelchair Distribution Camp in Khandwa, Madhya Pradesh. With this initiative, we donated 100 wheelchairs to specially-abled people in the Khandwa region, fulfilling our mission to empower lives, bring mobility, and make a positive difference in our community.



Tree plantation drive by Pinnacle Industries and Group Companies

Pinnacle Industries and Group Companies successfully organized a Mass Tree Plantation Drive in Pune & Pithampur to commemorate International Day of Forests on March 21st! Our collective efforts aim to plant 1000 trees, nurturing a greener, healthier environment.

This initiative underscores our dedication to environmental sustainability and community well-being. By planting indigenous tree species, we enrich greenery, promote biodiversity, and address climate change head-on.

Pinnacle 2.0

Pinnacle Industries distributes traffic barricades to enhance road safety

Pinnacle Industries extended its support to safeguard lives and property by distributing 120 traffic barricades to the Pithampur Traffic Police and Indore Traffic Police. These durable and highly visible traffic barricades provided by Pinnacle Industries will aid in delineating lanes, redirecting traffic, and controlling vehicular movement, especially during congested or high-risk areas.

We are committed to continuing our efforts to promote road safety initiatives and support the well-being of our communities. Pinnacle Industries remains dedicated to making meaningful contributions that positively impact society and create a safer environment.

Pinnacle 2.0

Blood donation drive at Pinnacle Industries

With hearts united and sleeves rolled up, Pinnacle Industries is thrilled to share the heartwarming success of our blood donation drive organized at the Pune and Pithampur offices. We extend our heartfelt thank you to all Pinnacle Family members who actively participated in this noble cause.

Through the dedicated efforts of our team and the overwhelming support from donors, we achieved remarkable results that will undoubtedly leave a lasting imprint on countless lives.

Group Synergy

EKA Mobility

VDL Groep Delegation Inaugurates EKA Mobility's New Plant at Chakan

We are delighted to announce a momentous occasion as VDL Groep, Netherlands, graced EKA Mobility's new plant in Chakan with its esteemed presence. In a ceremony, attended by (Standing L to R) Rolf-Jan Zweep, Willem van der Leegte, Sudhir Mehta, Ritika Mehta, and Arihant Mehta, marked by mutual respect and shared vision, EKA's new 5,000-unit e-bus manufacturing plant was inaugurated in Chakan, Maharashtra.

Following the plant inauguration, the delegation from VDL Groep proceeded to EKA Mobility's corporate office, where fruitful discussions ensued regarding future collaborations, synergies, and opportunities for mutual growth. The exchange of ideas and insights underscored the shared values of innovation, sustainability, and customer-centricity that unite our organizations.

We extend our heartfelt gratitude to VDL Groep for their visit and reaffirm our commitment to forging a prosperous partnership built on trust, innovation, and shared success.

EKA Mobility unveils EKA K1.5, India's first 1.5-tonne electric LCV range at Bharat Mobility Expo

EKA Mobility's electric Light Commercial Vehicles (LCVs), showcased at the Bharat Mobility Global Expo, mark a pivotal shift in the landscape of commercial transportation.

Unveiling their 1.5-tonne electric LCV, the EKA K1.5, at an attractive starting price of INR 13.9 lakhs* (ex-showroom), EKA boasts the highest payload capacity and the lowest Total Cost of Ownership in its category. This adaptable range offers numerous customizable variants tailored for over 8 applications, making it the most versatile electric LCV solution available. With zero emissions and a substantial battery capacity, the EKA K1.5 ensures sustainability and profitability, showcasing India's excellence in sustainable manufacturing.

EKA Mobility & GreenCell Mobility have signed an MoU to roll out 1000 intercity electric buses

EKA Mobility has collaborated and signed an MoU with Devndra Chawla, CEO of GreenCell Mobility to manufacture and supply 1000 electric buses. The introduction of these electric buses will deliver significant environmental and economic advantages. The positive impact extends to approximately 6 lakh individuals daily expected to benefit from the enhanced public transportation facilitated by these 1000 electric buses. These eco-friendly vehicles also aim to significantly reduce CO2 emissions by 32400 tonnes, aligning with global and national sustainability goals and contributing to a healthier and environmentally conscious society.

Instor India

Instor India partners with Zenith RSM

We're delighted to announce an exciting joint venture between Instor India and Zenith RSM to launch Zenith Instor Retail Solutions Asia Private Limited. This partnership signed among Ali Dere, Sudhir Mehta, and German Labazin targets to achieve market leadership in the retail store fixtures segment in India and the SAARC region.

By combining Instor India's world-class manufacturing capabilities and expertise in retail fixtures and Zenith RSM's strategic insights to offer unparalleled products and solutions to retailers globally, the partnership seeks to set new standards of excellence and innovation in the industry.

Mahashivratri and Women's Day celebration at Instor India

On 8th March, Instor India invited employees from all the group companies of Pinnacle Industries to attend a puja at their premises and seek the blessings of Lord Shiva on the auspicious occasion of Mahashivratri and Women's Day.

Following the puja, all the female employees were treated to a delightful lunch. However, a highlight of the day was the visit to Snehalaya Education Society, an institute dedicated to nurturing and empowering specially-abled children.

AIC-Pinnacle

AIC-Pinnacle successfully hosts Pinnacle Investment Conclave & Expo, 2024

With insightful discussions, dynamic networking, and innovative showcases, Pinnacle Investment Conclave & Expo, 2024, was organized to unite industry leaders, seasoned entrepreneurs, mentors, investors, other incubators, and all stakeholders to offer startups not only investment opportunities but also invaluable insights.

Among 180+ startup applications nationwide, 36 startups got the opportunity to present compelling pitch decks, and 13 secured funding from angel investors and venture capitalists, marking a significant milestone. The expo also featured 30 startups showcasing their products, services, innovations, and brilliant ideas.
